

WEATHERABLE COATING SYSTEM - LINE CARD

APPLICATION AUTOMOTIVE & TRANSIT: HEADLAMPS, LIGHTS, WINDOWS, WINDSCREENS, CANOPIES, SUNROOFS					
Product	Description	Coating Method	Substrate	Cure	Features
CrystalCoat® CC 6000	Two-Part hard coating system designed to impart excellent abrasion resistance, UV protection and weatherability.	Flow	Polycarbonate (PC)	Thermal	Optical Clarity, Abrasion & UV Resistance, Outdoor Durability.
CrystalCoat PR-660	Primer, adhesion promoter to accelerate abrasion resistance and protective weatherability performance when used in combination with SDC Weatherable Coating CrystalCoat 6000.	Flow	PC	Thermal	Optical Clarity, Abrasion & UV Resistance, Outdoor Durability.
