

High Performance Chemistry™

SDC Corporate Presentation 2024

Table of Contents

■ Company Overview

- History & Technology Profile
- Global Footprint
- Technology, Quality & Safety
- Trusted Advisor Program
- Business Initiatives, Values, Conduct & Trends

■ Markets Served

- Industrial, Architectural & Building
- Electronics, Transportation
- Medical/Safety, Military/Security
- Optics, Ophthalmic, Sunglass & Sports Eyewear

■ Products Overview

- SDC Coating Innovation
- Features and Benefits
- Product, Substrate & Coating Options
- Formable, Index-Matched, Multi-Purpose, Photochromic, Primerless, Solvent-Free, Tintable, UV-Cure & Weatherable

■ Technical

- Global Service & Support

■ Summary

- Value Proposition, Brand Elevation
- Innovative Products, Support and Partnership

38 YEARS OF PRODUCT INNOVATION

SDC at a Glance

38 Years of Innovation

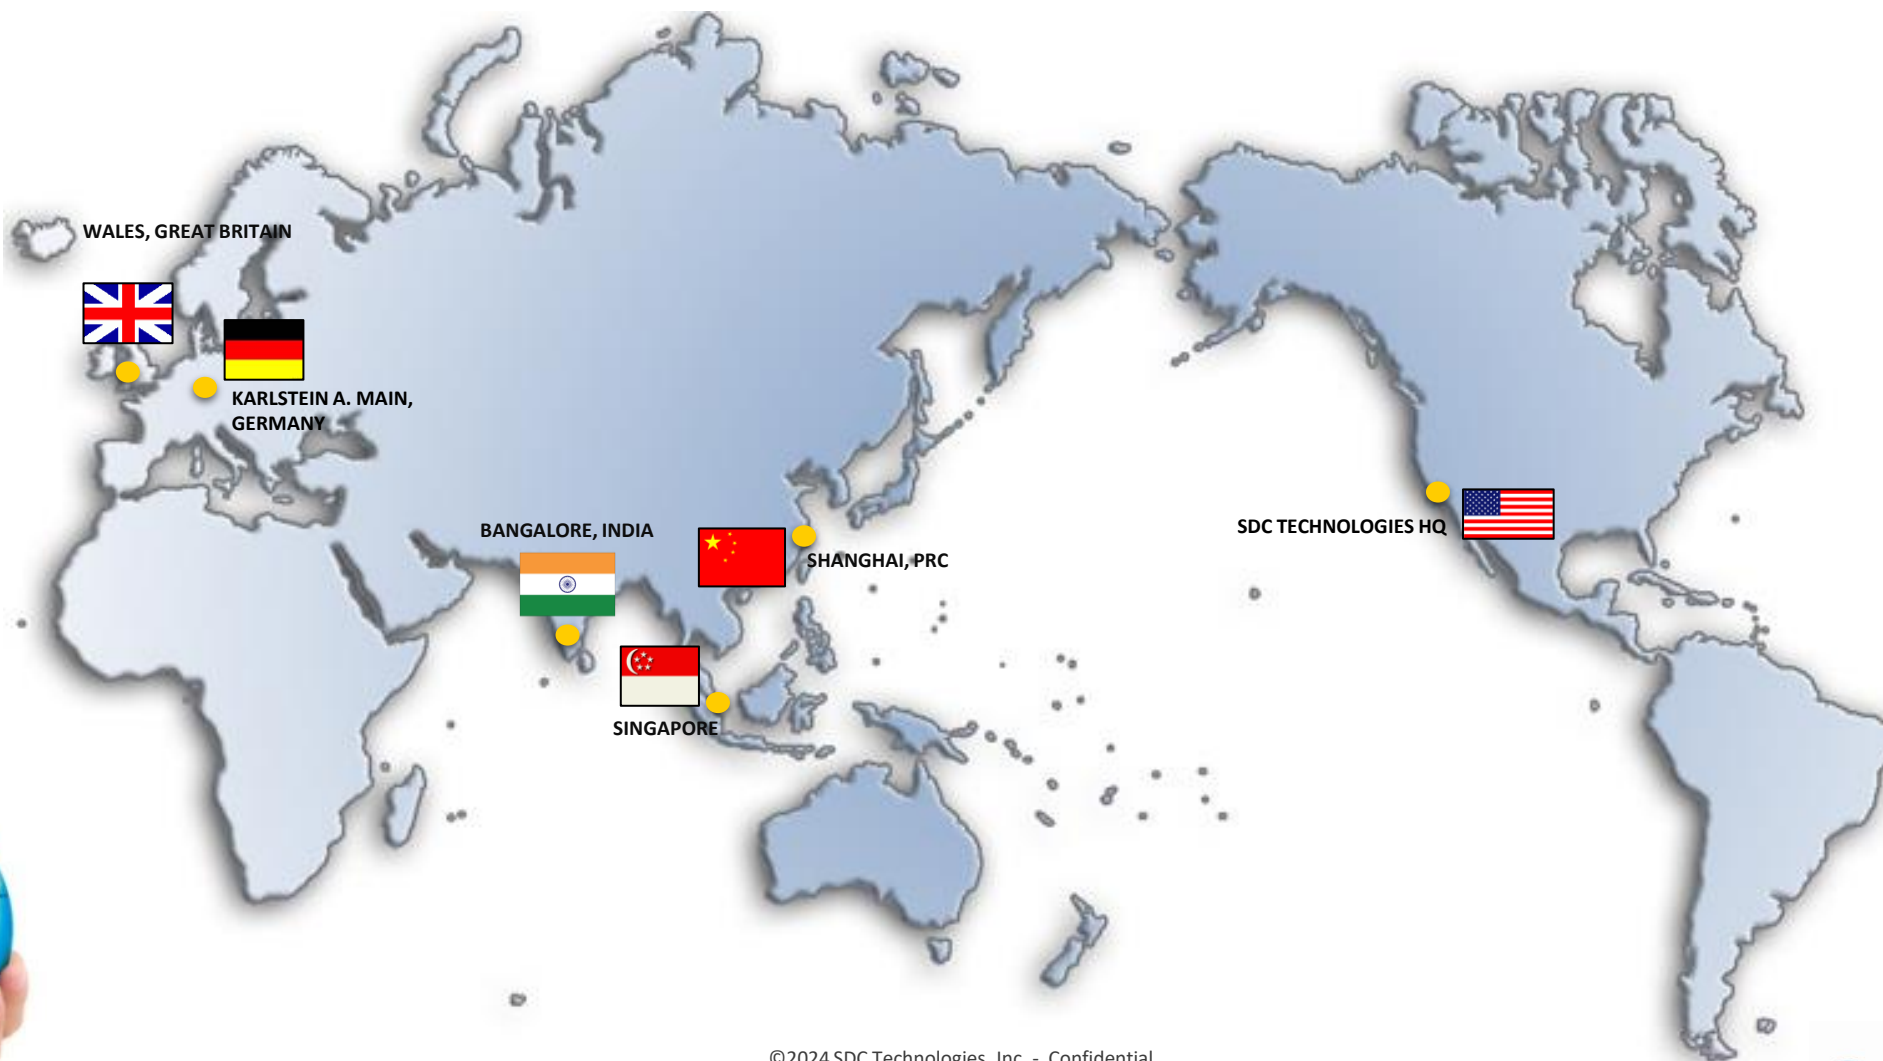

- 1986 Joint Venture of SDC (Swedlow Coatings, Inc. and Dow Corning Enterprises, Inc.) for Automotive & Aerospace Hard Coatings
- 1988 Partnered with Nippon Sheet Glass in Japan for Asia expansion
- 1989 Opened European Site
- 1996 SDC developed and patented a wide range of abrasion resistant products
- 2006 Established China Office to expand presence in Asia
- 2008 Expanded & Relocated Headquarters to Irvine, CA
- 2008 Acquired by Mitsui Chemicals Inc. in Japan
 - Global Leader of Premium High-Index Optical Monomers [MR-Series™: MR-8™, MR-7™, MR-10™, MR-174™](#)
 - SDC operates as an Independent Wholly-Owned Subsidiary of Mitsui
- 2010 SDC Acquired [FSI Coating Technologies, Inc.](#), Anti-fog Technology Leader
- 2011 Mitsui Chemicals, Inc. acquired Acomon AG
 - Established in 1980, RAV 7™ and RAVolution™ Low-Index Optical Monomers in Switzerland
- 2013 Mitsui Chemicals, Inc. acquired KOC Solution Co., Ltd.
 - Established in 1999, KOC® Mid, High, Super-High Index, Photochromic & Impact Resistant Optical Monomers in Korea & China
- 2013 Opening SDC Technologies Asia-Pacific Singapore office
- 2014 SDC Purchases Majority Ownership of Lens Technology I, LLC , Ophthalmic UV-Cure Hard Coatings (renamed [LTI Coating Technologies, LLC](#))
- 2017 LTI merger acquisition completed and fully integrated into SDC Technologies
- 2020 SDC acquired [COTEC GmbH](#), leader in PVD Finishing Materials, CVD Thin Film Applications, and Coatings Technology
- 2022 SDC acquired [Coburn Technologies, Inc.](#), leader in ophthalmic equipment, consumables, and services in all phases of lens production

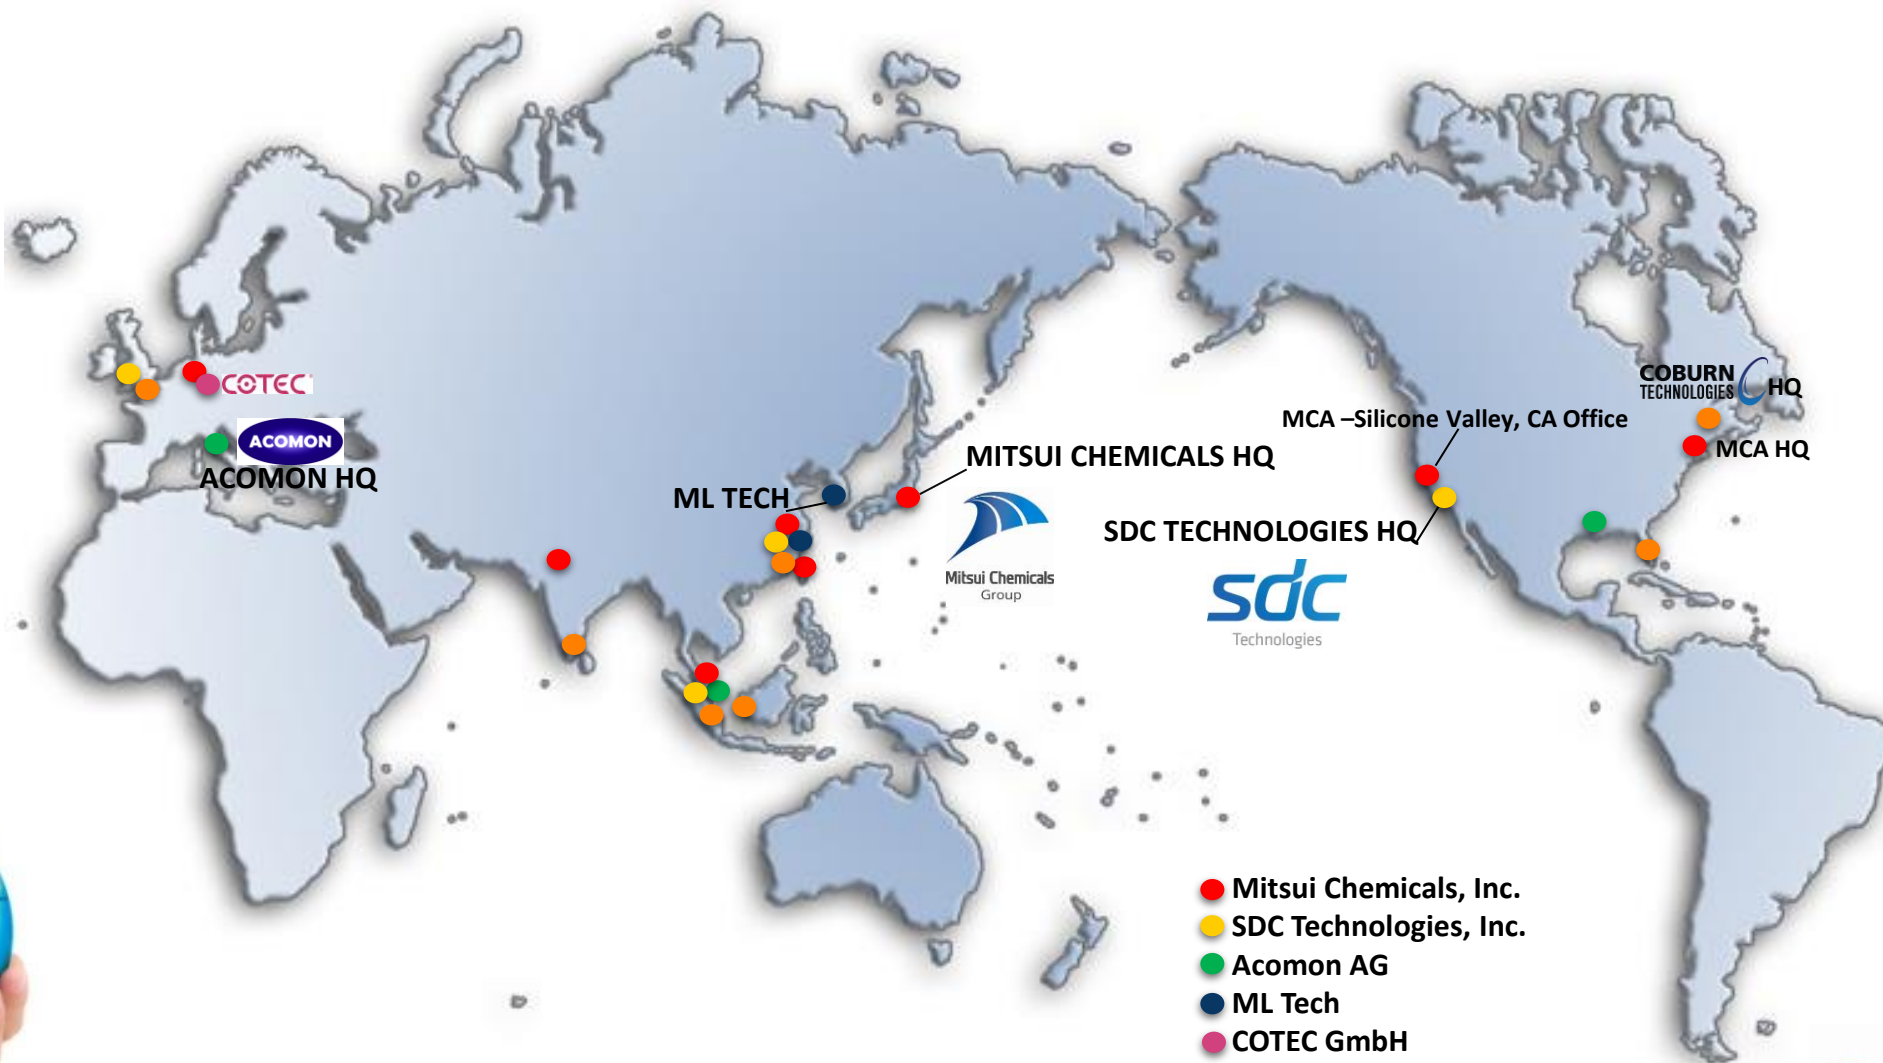

Pioneering Coating Technologies

- Recognized Global Leader of Premium Abrasion-Resistant Coatings
 - Expanding the Science of Sol-Gel Chemistry
- Cutting-edge Research and Proprietary, Patented Technologies
- CrystalCoat®, CrystalChrome®, CrystalSpin®, FormGard® and 3DLite® product portfolio
- 100+ patents & patents-pending globally
- Engineering Unique Coatings for a Wide Variety of Substrates
- Support Multiple Vertical Markets
- Manufacturing Quality Certification: ISO 9001: 2015
- Worldwide Distribution Network

Mitsui Chemicals

The Global Standard for High Refractive Index Lens Materials

by Mitsui Chemicals

Innovative materials for lenses that offer a balanced set of features:

- Thinness and Lightness
- Tintability
- Impact Resistance
- Optical Clarity

CrystalCoat®

Anti-abrasion Resistant Coatings

- Chemical Resistant
- Index-Matched
- Impact Resistant
- Primers
- Scratch Resistant
- Tintable
- UV and Thermal Cure

CrystalChrome®

Photochromic Coating

- Fast Darkening and Fading Speeds
- Suitable for All Lens Materials
- Dip or Spin Coat Thermal Cure Process

CrystalSpin®

UV-Cure Spin Coating Equipment

- Solvent-free or Solvent-Based
- Designed to Clean, Coat and Cure Lenses

Best in Class Anti-fog Coating Systems

NASA Approved Anti-fog for Space Helmets and Olympic Swim Goggles.

Visgard®

Vistex®

Anti-fog Coating Systems

- Hydrophilic
- Permanent Anti-Fog
- Thermal & UV-Cure
- Water-Washable
- Water-Sheeting

Materials | Vacuum | Coating

Ultra Hydrophobic Coatings **DURALON®**

- Anti-Fingerprint
- Anti-Smudge
- Easy-To-Clean
- Durable

Anti-reflective And Other PVD Materials

- Enhances Surface Properties
- Maximizes Comfort
- Reduce Eye Strain

Handling, Testing Systems And Equipment

- Printing
- Coating
- Evaluating

Ophthalmic Laboratory Lens Processing Equipment,
Instruments, Coatings, & Consumables for All
Phases of Lens Production

From eye care practices and
small retail locations to automated
wholesale laboratory facilities

SURFACING

Laboratory Surfacing and Coating Equipment

- Blockers
- Generators
- Polishers/Finers
- Detapers/Cleaners
- Spin Coaters
- Deblockers
- Alloy Recovery
- Software

FINISHING

In-Office Lens Finishing Equipment

- Lens Edgers
- Lens Tracers
- Lens Blockers
- Drills

OPHTHALMIC

Exam Lane and Pre-testing Equipment

- Autorefractors/
Keratometers
- Digital Refractors
- Lensmeters
- Slit Lamps
- Exam Lanes & Furniture
- Visual Acuity Charts
- Retinal Cameras
- Ocular Surface
Analyzers

Consumables

- Digital Surfacing
Consumables
- Traditional Surfacing
Consumables
- Finishing Consumables
- Coatings & Chemicals
Consumables

Core Competencies

Advanced Technology Global Distribution & Support

Technology/Product Development

- Elite team of senior chemists dedicated to discovering new technologies
- World-class, cost-effective coatings with long product life

Manufacturing/Distribution

- In-house specialty manufacturing for both large/small quantities
- Streamline supply-chain complexity and accelerate time-to-marketing
- Global, just-in-time (JIT) distribution

Worldwide Technical Support/Customer Care

- Experts in technical application consulting, ensuring high manufacturing yields
- Access to state-of-the-art equipment for lab-scale feasibility studies
- Dedicated, responsive support to ensure superior, consistent results

Continuous Improvement

Quality Policy

- Pursue quality and safety in all endeavors
- Continually improve our processes and products
- ISO 9001:2015 Certified, ISO certified since 2001

Safety Policy

- Facilities built to comply with the strictest environment and safety standards
- Participate in external surveillance, internal ISO certification audits
- Compliant with all packaging and shipping regulations globally

Environmental Sustainability

- Manufacture environmentally friendly and energy efficient coatings (UV cure, water-based, low VOC, Solvent-Free)
- Advocate bringing safe and innovative products to the marketplace

Trusted Advisor Program

Powerful Symbiotic Partnership

Mission

- To be a “Trusted Advisor” to our customers with demonstrated expertise in product development, coating application and high yields.

Program Features

- Catalyst for generating ideas, exploring concepts and creating value through innovation.
- Deliver high performance coatings globally, aligned with your requirements.

Customer Benefits

- Complement your internal R&D resources without additional costs.
- Localized product application expertise, ensuring maximized yields.
- Accelerate your time-to-market.

Collective collaboration to achieve the best results.

Vision and Mission

Core Business Initiatives

Our Vision

- To create value through customer partnerships
- Deliver uncompromising service
- Promote diversity and environmental responsibility

Our Mission

- To provide premium functional coating technologies
- Focus on improving product performance and durability
- Continual development of a new generation of coatings

Our Values

- Devoted to the highest ethical conduct standards for performance and accountability
- Commitment to customer relationships grounded on trust and integrity

Our Code of Conduct

Honesty, Respect & Confidentiality

Business Conduct

- Support passionate, creative and enterprising thinking
- Inspire integrity, empower responsibility
- Engage and embrace diversity and respect
- Lead by example, continually seeking improvement
- Continual innovation and pursuit of quality and excellence

Business Relations

- Confidentiality, non-disclosure, and respect for intellectual property
- Ethical acquisition and use of business intelligence
- Fair competition and trade practices
- Environmental conservation, health and safety protection

Business Environment Trends

Competitive Advantage

Global Consistency

- Worldwide presence
- Support of brand extensions

Leading-Edge Technology

- Continuous product innovation
- Differentiated product performance

Efficient Value Chain

- Fewer suppliers
- Cost-effective solutions
- Flexible, adaptive supply base
- Application Expertise

THE RECOGNIZED GLOBAL LEADER

Markets

Commercial & Industrial

A close-up photograph of several glass test tubes in a rack, with a blue-tinted background. A single drop of liquid is being dispensed from a glass dropper into one of the test tubes.

38 YEARS OF PRODUCT INNOVATION

Vertical Markets Served

Complementary Hard Coats, PVD Materials, Film, Sheet & Primers

- Anti-Fog Coating & Film Applications
- Architectural & Building
- Augmented, Virtual, Mixed Reality
- Automotive & Transit
- Aviation & Aerospace
- Commercial Freezer Display Cases
- Electronics & Display Technology
- Marine & Watercraft
- Medical & Safety
- Military & Security
- Ophthalmic Solutions
- Precision & Special Optics
- Specialty & Custom Applications
- Sunglasses & Sports Eyewear

Enhancing Durability & Optical Clarity

Features

- Large surface area PVD materials
- Exceptional optical clarity
- Excellent resistance abrasion and chemical resistance
- Primer-free adhesion to PC, acrylic & metal substrates
- Tintable & Printable surface
- Solvent and Solvent-free (100% Solids) coating options

Applications

- Architectural: covered walkways, balconies and railings, staircases and canopies
- Building Supplies: doors, windows, wall partition dividers
- Home Improvement: kitchen counters, cabinets, deck patio/porches, flooring
- Furniture: tables, chairs, lighting fixtures, chandeliers

Automotive & Transit

Accelerating Durability & Optical Clarity

Features

- Exceptional optical clarity
- Excellent resistance to abrasion, scratch, chemical, impact & UV radiation
- Premium weatherability & outdoor durability
- Hydrophobic & oleophobic easy-clean properties
- Versatile, primer-free adhesion to acrylic and PC
- Compatible with A/R, mirror & metalizing treatments
- Highly stable, maximizing product yields

Applications

- Automotive & Transit: windows, side mirrors & camera systems, windshields/screens, canopies, lights, sun/moon roofs, cockpit instrument clusters, panel displays & gauges, aluminum wheel covers
- Electronics: Head-up displays, GPS navigation devices and systems, LED lighting
- Headlight and reflector metallization

Automotive & Transit Components

VIDEO

Elevating Aircraft Equipment Durability & Performance

Features

- Exceptional optical clarity
- Excellent resistance to abrasion, scratch, chemical, impact & UV radiation
- Premium weatherability & outdoor durability
- Anti-static, anti-fog, anti-fingerprint, easy clean properties
- Compatible with A/R, mirror & metalizing treatments
- Highly stable, maximizing product yields

Applications

- Aviation: windows, windshields, canopies, lighting, cockpit instrument clusters, panel displays & gauges
- Electronics: Head-up displays, GPS navigation devices and systems, LED lighting
- Eyewear protection: goggles, face shields, visors and space helmets

Aviation & Aerospace Components

Anti-Fog Film for Cooler, Deli & Freezer Display Case Doors

Features

- Superior water washable anti-fog, abrasion, scratch, mar & UV resistance
- Highly effective and long-lasting condensation control
- Easy-Clean, anti-fingerprint, smudge proof, anti-slip
- Durable even under humid and wet conditions
- Printable surface, can be digitally printed upon for advertising

Benefits

- Easy to install and maintain with common household cleaners
- Optically clear, improving visual merchandising
- Supports environmental leadership and sustainability initiatives
 - Optimizes efficiency, reducing energy consumption of freezer/compressor operations

Maximizing Durability & Performance of Digital Products

Benefits

- CrystalCoat® provides durability to all types of plastic, plastic films, metal (aluminum, stainless steel) and metalized parts

Features

- Premium anti-fog, abrasion, scratch and chemical resistance
- Water-washable hard coatings and films
- Highly durable, weatherable and UV-protection
- UV - cure coating options available
- Compatible with A/R, mirror and metalizing treatments
- Easy-Clean, anti-fingerprint, smudge proof, anti-slip

Applications

- Superior coating solution for multiple electronic devices such as:
 - Cameras, GPS Systems, and plastic watch crystals
 - Desktop, laptop, tablet, notebook, and mobile computers
 - Digital outdoor billboard signage and kiosks
 - eReaders, digital notebook readers such as Kindle
 - HUD, Flat Panel Display (FPD), LED, LCD (plasma screens) OLED Portable multi-purpose Internet communications/media and PDA devices (ie. iPad)
 - Mobile and smartphone windows and casings
 - TV monitors, touch panel screens

Accelerating Durability & High Performance

Features

- Exceptional optical clarity for safer driving and navigation
- Premium weatherability and outdoor durability
- Excellent resistance to abrasion, chemicals, impact and UV radiation
- Hydrophilic, water sheeting anti-fog properties
- Hydrophobic & oleophobic easy-clean
- Primer-free adhesion to polycarbonate and acrylic substrates

Applications

- Electronics: Panel and Heads-up Displays (HUD), LED lighting
- Hullside and boat deck windows, windshields, and windscreens
- Navigation: GPS navigation systems, cockpit instrument clusters and gauges

Marine & Watercraft Components

Optimizing Visual Clarity & Product Durability

Benefits

- CrystalCoat® provides durability to all types of plastic, plastic films, glass, metal and metalized parts

Features

- Superior optical quality
- Premium anti-fog, abrasion, chemical impact and scratch resistance
- Water-washable hard coatings and films
- Weatherable and UV-protection
- Hydrophobic & oleophobic easy-clean properties
- Tintable permeable, fast tinting and color-fast
- Cures at low temperatures, resistant to ink ghosting

Applications

- Medical electronic displays and devices, surgical and diagnostic camera equipment, microscopes
- Automotive and transit, armored and security vehicle windshields, windows, and doors
- Protective & Safety eyewear: visors, face shields, visors, masks and goggles

Applications Where Visual Clarity is Imperative

Benefits

- CrystalCoat® provides durability to all types of plastic, plastic films, glass, metal and metalized parts

Features

- Superior optical quality
- Premium anti-fog, abrasion, chemical impact and scratch resistance
- Water-washable hard coatings and films
- Weatherable and UV-protection
- Hydrophobic & oleophobic easy-clean properties
- Tintable permeable, fading tinting and color-fast
- Cures at low temperatures, resistant to ink ghosting

Applications

- Provides superior protection to bullet/shatterproof glass (cars)
- Optical equipment: binoculars, rifle, night and laser scopes & surveillance cameras
- Aircraft canopies, cabin windows, cockpits & instrument clusters
- Military tank and security vehicle windows, windshields, instrument gauges and guidance systems
- Protective & Safety eyewear: visors, face shields, visors, masks and goggles

Precision & Special Optics Applications

Exceptional Product Durability & Visual Clarity

Features

- Transparent, exceptional optical clarity
- Abrasion, chemical and scratch resistant
- Premium weatherability & outdoor durability
- Easy-Clean, anti-fingerprint, smudge proof, anti-slip
- Compatible with A/R, mirror & metalizing treatments

Applications

- Aerospace avionics: communication, navigation and display multi-systems
- Aircraft precision optical assemblies and optronics solutions
- Architectural indoor LED lighting, solar concentrators and panels
- Augmented reality (AR) glasses, and virtual reality (VR) goggles
- Automotive lighting: interior, head /tail, backup cameras, sensors
- High-End Sensors & Camera Lens: back-up and side driving mirror, security, domes for self-driving cars
- Commercial scanner/print-head, barcode reader, semiconductor inspection equipment
- Heads-up Display (HUD) transparent panels for GPS, information/infotainment systems
- Medical diagnostic imaging devices, endoscopes, head mounted optics, microscope lens
- Military & Defense Helmet Mounted Display System (HMDS), night vision and guidance systems

Optics Components

THE RECOGNIZED GLOBAL LEADER

Vision Eyewear

Our specialty, providing coating solutions for the world's most prestigious brands.

Vision Eyewear Vertical Market

Eyewear Markets

- Rx Prescription
- Safety and Military
- Sports
- Sunglass

Customers

- Leading Rx Prescription Lens Manufacturers
 - Americas
 - Asia
 - Europe
- Leading Sunglass Manufacturers Globally
- Premium Sunglass Brands
- Premium Sports Brands
- Leading Safety and Military Organizations

Many customers use SDC products exclusively.

Multiple Industry Leading Eyewear Solutions

Benefits

- CrystalCoat® provides durability to all types of plastic, plastic films, glass, metal and metalized parts

Features

- Superior Optical Clarity
- Premium anti-fog, abrasion, chemical impact and scratch resistance
- Water-washable hard coatings and films
- Weatherable and UV-protection
- Anti-Reflective and Ultra-Hydrophobic
- Index-Matched (Mid and High)
- Tintable and Non-Tintable
- Primer and Primerless

Eyewear Lens Applications

- High-Index lenses such as MR™ Series (MR-8, MR-7, MR-10, MR-174)
- CR-39® & RAV 7™, RAVolution™, and Trivex®
- Acrylic, polycarbonate, polyamide and other plastics
- Polarized, photochromic and tinted
- Compatibility with AR, tinted and metalized treatments

THE RECOGNIZED GLOBAL LEADER

CrystalCoat[®] Products

Formable, Index-Matched, Multi-Purpose, Photochromic,
Primerless, Solvent-Free, Tintable, UV-Cure & Weatherable

Abrasion Resistant Coatings

Premium High Performance

Enhancing the World's Most Prestigious Brands

Coating Solutions

Substrate Applications

Custom Development

THE RECOGNIZED GLOBAL LEADER

Why are SDC Coatings Unique?

Pioneers of Innovation

- SDC was the first to use nanoparticles to develop Sol-Gel coatings
 - Provides a hard, glass-like surface
- Outperforms conventional coatings and paints
 - Exceptional optical quality
 - Superior abrasion resistance
 - Highly durable and chemical resistance
- Why Customers choose SDC
 - Product quality and performance superior
 - Delivery of customized product solutions
 - Application expertise and customer support
 - Ongoing technology development and product improvements

Coating Production Benefits

Easy Integration with Operations

- Enhanced product performance, utility, appearance and exception quality
- Environmentally friendly UV-cure, water-based, low VOC, solvent-free (100% solids) options available
- Easy to use and highly stable products
- Products can easily be integrated into coating operations, requiring no pre-mixing
- Long product service life is cost-effective, reducing the need for frequent tank change-outs
- Availability globally, multi-substrate compatible coating solutions streamline manufacturing, dramatically improving yields and profitability
- Access to SDC's global technical support team for all product validation and application requirements

Innovative Product Solutions

- Superior optical clarity
- Premium abrasion, chemical, impact, and scratch resistance
 - Best-in-class Bayer results
- Good adhesion to a variety of substrates
- Anti-Reflective and compatibility with mirror and metalizing lens treatments
- Excellent environmental durability including QUV
- Meets European and American safety standards (ANSI Z87.1-2003, EN 166K, EN166N, EN166UV)
- Formable, flexible and tintable
- Excellent anti-fog, hydrophilic water sheeting and hydrophobic easy-clean properties
- High-index matched as well as medium hard coating options
- Primer and primerless, thermal and UV-cure

Substrate Materials

Superior Optical Clarity for Multiple Applications

- Acrylic
- Aluminum and other non-ferrous metals
- CR-39[®] & RAV 7[™]Glass
- High-Index lenses, MR[™] Series MR-8[™], MR-7[™], MR-10[™] & R-174[™]
- PET Film & Sheet
- Polyamide (Optical Nylon)
- Polycarbonate and other Plastics
- RAVolution[™] and Trivex[®]
- Specialty Polymers
- Stainless Steel
- Tritan[™]

Multiple Coating Applications

- Cast Resins
- Fabricated Plastics, Metal & Glass
- Plastic Film
- Forged & Non-Ferrous Metals
- Injection Molded Plastics
- Plastic, Metal & Glass Sheet
- 3D Technology for complex shapes & large area surface components

Coating Application Methods

Dip

- Two-sided coating provides high throughput and the ability to maintain thickness control
- Ideal for lenses and small parts

CVD

- Chemical Vapor Deposition Thin Film technology (wafer thin substrate)
- For producing high performance solid materials for semiconductors

Flow

- Effective for large or uniquely shaped parts
- Well suited for plastic sheeting and large shapes

PVD

- Physical Vapor Deposition optical layer system, functional finishing materials
- Well suited for digital printers & progressive lenses

Roll-to-Roll

- One-sided coating, ideal for UV-cure coatings
- Ideal, continuous process for films and sheets

Spin

- One-sided coating features good thickness control
- Perfect for lenses

Spray

- One-sided coating ideal for large or complex parts, offers high throughput
- Applications include cell phone windows and casings

Thermal/UV-Cure Coatings and Primers

- Our Most Popular CrystalCoat® Products
 - Formable Coatings
 - Index-Matched Coatings
- Multi-Purpose Coatings
- CrystalChrome® Photochromic Coatings
- Primerless Coatings for PC
- Solvent-Free (100% Solids) Coatings
- Tintable Coatings
- UV-Cure Coatings
- Weatherable Coating System

CrystalCoat®

Formable (Thermoflexible) Product Suite

Exceptional Abrasion Resistance & Optical Clarity

Features

- Excellent abrasion, chemical, impact and scratch resistance
- Optically clear, provides exceptional adhesion to multiple substrates
- Formable and flexible
- Tintable at room temperature
- Easy to use, does not require pre-mixing, available in primer-free options for PC
- Long service life, can be easily integrated into your coating operations

Substrate Materials

- Acrylic
- CR-39®
- Glass (Primer Recommended)
- Polyamide (Optical Nylon)
- Polycarbonate (PC)
- Polyester (PET) Film & Other Plastics

MR-8™, MR-7™, MR-10™, MR-174™ are trademarks of Mitsui Chemicals, Inc. RAV 7™ and RAVolution™ are registered trademarks of Acomon AG. Acomon AG is a wholly-owned subsidiary of Mitsui Chemicals. CR-39® and Trivex® are registered trademarks of PPG.

Index-Matched Product Suite

High-Index Eyewear Enhanced by High-Performance Chemistry

Features

- CrystalCoat® is the best high-index coating on the market, considered the world's leader
- Optically clear, provides exceptional adhesion to multiple substrates
- Capable of performing in the most demanding environments
- Excellent abrasion, chemical, and impact resistance, delivering best-in-class Bayer results
- Easy to use, does not require pre-mixing, available in spin or dip, primer or primer-free options
- Long service life, can be easily integrated into your coating operations

Substrate Materials

- Acrylic
- CR-39®
- High-Index lenses MR™ Series MR-8™, MR-7™, MR-10™ & R-174™

MR-8™, MR-7™, MR-10™, MR-174™ are trademarks, and RAV 7™ and RAVolution™ are registered trademarks of Mitsui Chemicals, Inc.
CR-39® and Trivex® are registered trademarks of PPG.

Multi-Purpose Product Suite

Exceptional Abrasion Resistance Accelerated Performance

Features

- Multi-purpose products provides exceptional adhesion to multiple substrates with exceptional tintability
- Weatherable durability capable of performing in the most demanding environments
- Excellent abrasion, chemical, and impact resistance, delivering premium Bayer results
- Available in dip, flow or spin, primer or primer-free, thermal and UV-cure options
- Long service life, can be easily integrated into your coating operations, does not require pre-mixing

Applications

- Ideally suited for ophthalmic, sunglass, sports, military and safety eyewear where optical clarity and high durability are required
- Also suitable for aerospace, automotive and transit glazing as well as electronic devices

Substrate Materials

- Acrylic
- CR-39® and RAV 7™
- High-Index lenses MR™Series MR-8™, MR-7™, MR-10™ & R-174™
- Polyamide (Optical Nylon)
- Polycarbonate and other Plastics
- RAVolution™ and Trivex®

Photochromic Product Suite

Light Reactive
High-Performance Clarity

Features

- Exceptional Optical Clarity
- Fast Darkening and Fading Speeds
- Dip or Spin Coat and Thermal Cure Process
- Compatible with Anti-Reflective Metallizing Treatments
- Suitable for Gray and Brown Photochromic Colors
- Abrasion and Chemical Resistance

CrystalChrome®

Applications

- Ophthalmic, sunglass, sports, military and safety eyewear

Substrate Materials

- Suitable for All Lens Materials

Primerless Product Suite

Exceptional Durability, Premium Abrasion Resistance

Features

- Primerless (or primer-free) adhesion to acrylic and polycarbonate
- Premium abrasion and chemical resistance
- Flexibility, compatible with A/R, mirror and metalizing treatments
- Thermal cure, available in dip or spin application

Applications

- Ideally suited for ophthalmic, sunglass, sports, military, and safety eyewear where optical clarity and high durability are required
- Also suitable for aerospace, automotive and transit glazing as well as electronic displays

Solvent-Free (100% Solids) Product Suite

Environmentally Sustainable Coating

Features

- High performance solvent-free, 100% solids coatings are efficient and environmentally friendly
- Premium abrasion and chemical resistance
- Compatible with A/R, mirror, and metalizing treatments
- Non-flammable
- Improved adhesion

Substrate Materials

- Acrylic
- CR-39® & RAV 7™
- Glass
- Polycarbonate (PC)

Performance Benefits

- Highly stable, delivers premium Bayer results
- Contains virtually no VOCs hazardous air pollutants or toxic release compounds for a cleaner/safer work environment
- Rapid UV-Cure:
 - Accelerated curing increases production speed
 - Reduces scrap and waste as well as regulatory requirements
 - Lowers energy, application, and overall operational cost
 - Does not emit harmful toxic gases during the evaporation process

Tintable Coatings Product Suite

Fast Tint Technology Extraordinary Performance

Features

- Tintable coat products provide adhesion to multiple substrates with exceptional accelerated tintability
- Weatherable UV durability capable of performing in the most demanding environments
- Premium abrasion and chemical resistance
- Available for dip or spin applications
- Compatible with AR, mirror, and metalizing treatments
- Long service life, can be easily integrated into your coating operations, does not require pre-mixing

Applications

- Ideally suited for ophthalmic, sunglass, sports, military, and safety eyewear where optical clarity and high durability are required

Substrate Materials

- Acrylic
- CR-39® and RAV 7™
- High-Index lenses MR™ Series MR-8™, MR-7™, MR-10™ & R-174™
- Polyamide (Optical Nylon)
- Polycarbonate and other Plastics
- RAVolution™ and Trivex®

Weatherable Coating System

Exceptional UV Protection & Outdoor Durability

- Electronic Displays: Tablets, Phones, Computers, TVs
- Lighting & Mirrors for Multiple Applications
- Transit: Commercial, Industrial and Recreational Vehicles such as Automotive, Aerospace, Bus, Industrial & Commercial, Marine, Motorcycle, Rail

Multiple Polycarbonate Applications

High-Performance Solutions for Transit & Electronics

Transit Applications

- Airplane, bus, car and rail windows and mirrors
- Automotive sunroofs, aerospace cockpit canopies
- Motorcycle and automotive windscreens
- Instrument panels, displays, and gauges
- LED lighting for commercial, industrial and recreational vehicles

Electronic Device Applications

- PDAs, digital readers
- Desktop, laptop, tablet and mobile computers
- Portable multi-purpose Internet communications/media devices (e.g., iPad)
- Mobile and Smartphone windows and casings
- LCD and plasma screens
- Cameras and plastic watch crystals

UV-Cure Coating Product Suite

Environmentally Friendly Abrasion & Chemical Resistance

Markets Served

- Architectural & Building
- Automotive & Transit
- Aviation & Aerospace
- Optics, Ophthalmic, Medical, Safety & Sports Eyewear

Features

- Exceptional Abrasion & Chemical Resistance
- Outstanding Optical Clarity

Available Options

- Environmentally Conscious UV Light, Fast Curing
- Dip, Flow & Spray Coat Compatible

Weatherable Coating System

Accelerates Outdoor Durability

Coating Features & Benefits

- Superior optical clarity, exceptional adhesion to PC
- Excellent abrasion and scratch resistance
- Weatherable, outdoor durability and UV-protection
- Ultra-hydrophobic, easy-clean

Available Options

- Thermal Cure
- Two-Part Coating & Primer System
- Flow Coat Compatible

THE RECOGNIZED GLOBAL LEADER

Technical Service & Support

A close-up photograph of several glass test tubes in a rack, with a blue-tinted background. A single drop of liquid is suspended from a glass dropper tip, about to fall into one of the test tubes.

38 YEARS OF PRODUCT INNOVATION

Global Service & Support

Strategic Development Partner

Technical Support

- Your strategic development partner focused on continuous quality improvement
- Localized technical support teams backed by central R&D department accelerates product development
- Extensive product portfolio and complementary technology available through parent Mitsui Chemicals and affiliate companies allows to deliver a complete solution while taking advantage of a larger cost-effective supply network

Customer Care

- Dedicated to world-class operations and global customer relationships
- Committed to delivering uncompromising service, exceeding customer expectations

THE RECOGNIZED GLOBAL LEADER

Summary

Strategic Product Development

A close-up photograph of several glass test tubes in a rack, with a blue-tinted overlay. A dropper is positioned over one of the tubes, with a single drop of liquid about to fall. The background is a solid blue gradient.

38 YEARS OF PRODUCT INNOVATION

Value Proposition

Why Choose SDC?

- Long and successful record of continuous growth through technical innovation
- Comprehensive portfolio with hundreds of patented premium coatings for multiple applications
- Trusted Advisor Program
 - Partnership founded on creating business value through quality and technical innovation
 - Serves as an extension of your product development team to ensure quality performance and yields
- SDC's innovative solutions improve the durability and performance of the world's most recognized products
- Extensive support and distribution network

Brand Elevation

Enhancing Product Durability

- Trusted by the World's Most Prestigious Brands
- From the 2012 Olympic Games swim goggles, to NASA Space Mission helmets, our premium coatings are used to enhance products where high performance is critical.
 - Best-in-class resistance to abrasion, chemicals, fingerprints, fog, impact, oil, scratches, static, and water
 - Exceptional optical clarity and environmental durability
- Global Manufacturing Capacity
 - Closely aligned to our global customers to deliver product, service, and support 24x7
 - ISO 9001: 2015 quality certified

Innovative Product Solutions

What we can do together is boundless

Product Development Support

- Enhance your products' performance and brand image
- Leverage SDC's proprietary, patented technology
- Rely on consistent, certified products
- Access global JIT (Just-in-Time) delivery and support

Support Partnership for your Products

- Evaluation
- Qualification
- Implementation
- Commercialization
- Future development strategies
