

Advanced APEL™ copolymer with high performance CrystalCoat® for all your optic needs.

An innovative integration of Mitsui's APEL™ Cyclo Olefin Copolymer with SDC's optically clear CrystalCoat UV MP-1175 — the leading UV-cure topcoat for premium scratch resistance on multiple optical applications. A unique plate or lens solution offering excellent electrical insulation, outstanding moisture, heat, chemical, and scratch resistance combined with A/R coating compatibility and low birefringence. SDC is certified to ISO 9001:2015 (Quality) and ISO 14001:2015 (Environmental) standards.
