

## CrystalCoat® TC-332

PREMIUM TINTABLE ABRASION RESISTANCE

## Ophthalmic Lens

### High Performance Chemistry

Founded in 1986, SDC Technologies, Inc. (SDC) is the recognized global leader in the manufacturing and distribution of premium proprietary abrasion resistant coatings. Leveraging the science of Sol-Gel Chemistry has led to the development of new technologies that transform the performance of coating. SDC's innovative coating solutions combine superior scratch resistance and fast tinting with exceptional product stability.

### Proven Industry Reputation

With more than 39 years of product innovation, SDC's proprietary technologies are trusted by the world's most prestigious brands. CrystalCoat coatings were designed to elevate your brand by enhancing the durability and quality of your products. SDC is certified to ISO 9001:2015 (Quality) and ISO 14001:2015 (Environmental) standards.

### Patented Technology

CrystalCoat® TC-332 delivers best-in-class abrasion resistance, and has a refractive index of 1.47. Uniquely formulated for ophthalmic and other high performance applications where optical clarity and durability are required. Capable of meeting your dynamic production needs, TC-332 is a tintable thermal cure coating, compatible with anti-reflective (A/R) lens treatments, and suitable for dip coat applications. Primer required for use with polycarbonate.

SDC's optically clear coatings are formulated to maximize the performance and durability of eyewear. These revolutionary multi-purpose coatings are highly versatile, and can easily be integrated into your coating operations, requiring no premixing. CrystalCoat's easy to use single coat application, and long service life eliminates the need for frequent tank changes outs, delivering outstanding value.

## CrystalCoat® TC-332

### PRODUCT OVERVIEW

- Exceptional Optical Clarity
- Dip Coat Application
- Compatible with A/R Coatings
- Fast Tinting
- Refractive Index of 1.47

### PERFORMANCE FEATURES

- Delivers best-in-class abrasion resistance
- Excellent product durability and stability
- Easy to use single coat system, meets demanding industry test requirements
- Primer required for use on polycarbonate substrates

### PRODUCTION BENEFITS

- Manufactured under stringent ISO 2001:2015 quality standards, enhancing coating performance
- Long product service life reduces the need for frequent tank change-outs
- CrystalCoat streamlines manufacturing, enhancing yields and profitability

### PRODUCT FEATURES

| Description         | Typical Values |
|---------------------|----------------|
| Abrasion Resistance | Excellent      |
| Refractive Index    | 1.47           |
| % Solids            | 29–32          |
